REQUIRED FINDINGS:

**Public Works Board
Recommendation**

Vote: N/A

Prepared By:
Chris T. Trusty

NOTES/COMMENTS:

RECOMMENDATION:

Staff recommends that the City Council approves the Bid Award to _____ in the amount of _____ to provide and install an elevator for the Energy Building.

BACKGROUND:

With the sale of the dry utilities to Questar and Rocky Mountain, the City will retain ownership of what has been termed the “Energy Building.” Going forward, employees currently occupying the Public Works building will move into the Energy Building. Currently, there are XX employees in the Energy building, and after the sale, there will be YY employees based in this building.

Eventually, it is planned for Planning, Building, Code Enforcement, Special Events, and Sports to all be located into this building. In order to accomplish this, the basement will be finished to provide adequate office space. In conforming to the adopted building code, the building will need to be fitted with an elevator. It is most prudent to install the elevator prior to any other basement improvements. Below is a tabulation showing the bids the City received.
